

IN THE CLAIMS

1. (Currently Amended) A television programme guide display providing information relating to programs which can be selected to be viewed, said display comprising:

a grid having a time bar to indicate the particular time period to which the display relates, a series of cells, each cell representing a program, and one or a number of ~~the~~ cells representing a program channel, at least one of said cells selectable to select a program for viewing and wherein if one or more a programs indicated by one or more corresponding a cells within the grid does not start or finish within ~~the a~~ time period represented by the time bar on the display, a display portion is generated on the display ~~with respect to the said cell for the program at an appropriate location and said display portion shows the time which has elapsed since the said program started and/or which will lapse beyond the time period shown before the program ends~~ for each of said cells corresponding to the one or more programs and said display portion shows the time which has elapsed since the program started prior to the start of the time period represented by the time bar and/or the time for which the program will last beyond the end of the time period represented by the time bar.

2. Canceled

3. Canceled

4. Canceled

5. (Currently Amended) A method of generating a television program guide, said television guide including at least one display page comprising a grid including the following steps:
generating said grid by providing a time bar, a series of cells, each cell indicating a program to be shown on a particular channel over the time period displayed, and the size of each cell; indicating the start, finish and length of each program with respect to the time bar; ~~and~~

if one or more programs indicated by one or more corresponding cells within the grid does not start within the time period displayed, calculating for each of the cells the difference between the start or finish times of the time bar which is displayed and the start or finish times of the particular program; as appropriate and the difference is displayed with respect to the said program cell on the display if a cell for a particular program indicates that the said program has already started prior to the time period displayed on the display page or finishes after the time period displayed on the display page.

if one or more programs indicated by one or more corresponding cells within the grid does not finish within the time period displayed, calculating for each of the cells the difference between the end time of the time bar and the finish time of the program; and

generating a display portion displaying the difference with respect to the program cell on the display for each of the programs which do not start or finish within the time period displayed.

6. (Currently Amended) A method of generating a television guide display according to claim 5 wherein the display portion ~~providing a the display~~ is provided as an additional portion of the cell so that those cells which indicate programs which have started or will finish outside the time period which is displayed on the display page, will protrude from the appropriate side edge of the grid and,

in said additional portion, will be displayed the time which has elapsed or will lapse from the start or before the finish of the program as appropriate.

7. (Currently Amended) A method according to claim 5 including the step of transmitting the calculation, and data relating to the calculation, from a broadcaster at a remote location to a broadcast data receiver so that, during the processing of the data, the broadcast data receiver can generate the display page to include said ~~time indications~~ display portions.
